Principles of Small Animal Anesthesia & Perioperative Analgesia in 4 Modules

Organization: Narkovet Consulting, LLC., Amalienstrasse 40, D-42287 Wuppertal
Location: Scuola di Agraria e Medicina Veterinaria, Università degli Studi di Torino, Largo Braccini, 2 – 5 (in Via Leonardo da Vinci), I-10095 Grugliasco (TO)

Scientific Director: Prof.ssa Laura Zarucco, Università degli Studi di Torino
Course Director: Prof. Dr. Bernd Driessen, University of Pennsylvania
Lecturers: Prof. Dr. Bernd. Driessen, DACVAA, DECVPT (USA/DE), Dr. Chiara Adami, DACVAA, DECVA (CH/UK/IT), Dr. Stefano di Concetto, DACVAA (USA); Dr. Réne. Dörfelt, DECVA (DE), Dr. Francesco. Aprea, DECVA (ES)

(ECM accredited with 50 CE points)
(ATF accredited course with 75 CE points)
Principles of Small Animal Anesthesia & Perioperative Analgesia

OVERVIEW

The 2015 course program is designed for veterinarians who wish to focus on anesthesia, perioperative intensive care and pain management in small animal practice. This course provides the candidates with a comprehensive understanding of the state of the art of small animal anesthesia, perioperative patient care, and analgesia including commonly used techniques of multimodal and loco-regional anesthesia and analgesia. In addition methods of advanced monitoring during anesthesia and techniques of mechanical ventilation will be discussed and appropriate diagnosing and treatment of abnormal heart rhythm, hemodynamic or respiratory function as well as imbalances in acid-base, water-, and electrolyte homeostasis explained.

Clinical case presentations will illustrate the immediate clinical relevance of basic concepts of anesthesia. Furthermore, detailed presentation of disease-, age-, and species-specific aspects of anesthesia and perioperative pain management will demonstrate how to implement common concepts of anesthesiology and analgesia into clinical practice.

At the end of the course participant will:

• Know the clinical pharmacology of a broad spectrum of sedatives, anesthetics and analgesics
• Be familiar with the functioning of modern anesthetic machinery and monitoring equipment as well as the different techniques of administering safe anesthesia and analgesia
• Be able to prescribe appropriate anesthetic and analgesic protocols for animals with a wide variety of clinical conditions and for a wide variety of surgical and diagnostic interventions
• Know the clinical pharmacology of paralytic agents and how to induce, monitor, and reverse a neuromuscular blockade
• Be able to assess the hemodynamic, respiratory, and other vital organ functions in the perianesthetic period
• Be able to prescribe interventions necessary to maintain adequate cardiovascular, respiratory, and other vital organ function
• Be able to assess the fluid, electrolyte, and acid-base status of an animal and correct abnormalities, when necessary
• Recognize and treat the most common perianesthetic emergencies
• Have a thorough knowledge of a cardiopulmonary resuscitation protocol used in anesthesia
• Be familiar with the principles and techniques of multimodal and loco-regional anesthesia & analgesia
Detailed Course Syllabus
(Subject to change)

Module I

April 23, 2015

08:00 – 08:45 Registration, distribution of course handbooks and flash drives
08:45 – 09:00 Welcome address
09:00 – 10:00 Introduction to the course, course objectives, anesthesia guidelines in Europe and beyond; advantages and tasks of an anesthesia team; introduction to veterinary anesthesia in general including anesthesia-relevant terminology
10:00 – 11:00 Preanesthetic animal evaluation, physical status and risk assessment; animal preparation
11:00 – 12:00 Pharmacology of premedication drugs (α2-Agonists; Phenothiazines)
12:00 – 14:00 Lunch break
14:00 – 15:00 Pharmacology of premedication drugs (Benzodiazepines; Anticholinergics)
15:00 – 16:00 Pharmacology of premedication drugs (Opioids)
16:00 – 17:00 Pharmacology of premedication drugs (Opioids)
16:00 – 17:00 Purpose of premedication and selection criteria for various premedication protocols

April 24, 2015

08:00 – 09:00 Pharmacology of injectable anesthetics (Thiopental, Propofol, Alfaxalone, Etomidate)
09:00 – 10:00 Pharmacology of injectable anesthetics (Ketamine, Tiletamine-Zolazepam; Opioids)
10:00 – 11:00 Applied Pharmacokinetics for the anesthetist (Delivery, distribution & elimination of injectable agents used in anesthesia)
11:00 – 12:00 Drug protocols used for induction of anesthesia in small animals & selection criteria
12:00 – 14:00 Lunch break
14:00 – 15:00 Total (TIVA) & partial intravenous anesthesia (PIVA) for maintenance of anesthesia
15:00 – 16:00 Pharmacology of inhalant anesthetics (Isoflurane, sevoflurane, [desflurane]; N2O) – Part I
16:00 – 17:00 Pharmacology of inhalant anesthetics (Isoflurane, sevoflurane, [desflurane]; N2O) – Part II

April 25, 2015

08:00 – 09:00 Q/A Session for lectures 2-14
09:00 – 10:00 Uptake, distribution & elimination of inhalant anesthetics using computer simulations
10:00 – 11:00 Uptake, distribution & elimination of inhalant anesthetics using computer simulations
11:00 – 12:00 Low and high flow anesthesia with inhalant anesthetics using computer simulations
12:00 – 14:00 Lunch break
14:00 – 15:00 Case presentations to apply information acquired in previous lectures: Cases 1 - 2 (interactive discussion)
15:00 – 16:00 Case presentations to apply information acquired in previous lectures: Cases 3 - 4 (interactive discussion)
16:00 – 17:00 Case presentations to apply information acquired in previous lectures: Cases 5 - 6 (interactive discussion)
Ca. 17:00 End of Module I

Module II

May 21, 2015

09:00 – 10:00 Multiple Choice Question (MCQ) Quiz 1 (42 MCQs) covering lectures 1 - 21
10:00 – 11:00 Anesthesia machine, anesthesia circuits, vaporizers & related equipment, Part I
11:00 – 12:00 Anesthesia machine, anesthesia circuits, vaporizers & related equipment, Part II
12:00 – 13:00 Techniques of endotracheal intubation & related equipment
13:00 – 14:00 Lunch break
14:00 – 15:00 Signs of anesthesia/recognizing stages of anesthetic depth / keeping an anesthesia record
15:00 – 16:00 Brief review of the cardiovascular system and its primary functions; Techniques of cardio-vascular monitoring incl. ABP, plethysmography, CVP [CO]; Part I
16:00 – 17:00 Techniques of cardio-vascular monitoring incl. ABP, plethysmography, CVP [CO]; Part II
May 22, 2015

08:00 – 09:00  Management of hemodynamic dysfunction based on case presentations, Part I (interactive exercises)
09:00 – 10:00  Management of hemodynamic dysfunction based on case presentations, Part II (interactive exercises)
10:00 – 11:00  Reading the ECG with focus on rhythm recognition
11:00 – 12:00  Causes, recognition and treatment of cardiac rhythm disturbances; Part I (interactive exercises)
12:00 – 14:00  Lunch break
14:00 – 15:00  Causes, recognition and treatment of cardiac rhythm disturbances; Part II (interactive exercises)
15:00 – 16:00  Causes, recognition, and treatment of cardiac arrest (CPCR) – current guidelines for CPCR
16:00 – 17:00  Perianesthetic fluid therapy crystalloids, colloids, blood products; Part I

May 23, 2015

08:00 – 09:00  Perianesthetic fluid therapy (crystalloids, colloids, blood products); Part II
09:00 – 10:00  Diagnosis and treatment of abnormal perianesthetic electrolyte status (K, Ca, Na, Cl, Mg) based on clinical cases; Part I (interactive exercises)
10:00 – 11:00  Diagnosis and treatment of abnormal perianesthetic electrolyte status (K, Ca, Na, Cl, Mg) based on clinical cases; Part II (interactive exercises)
11:00 – 12:00  Brief review of the respiratory system; causes and impact of respiratory dysfunction on the organism during anesthesia
12:00 – 13:00  Lunch break
13:00 – 14:00  Respiratory function monitoring techniques with focus on pulse oximetry and capnometry-graphy
14:00 – 15:00  Respiratory Function Monitoring: Focus on arterial blood gas (ABG) analysis using clinical cases (interactive exercises)
15:00 – 16:00  Basic concepts of diagnosis and treatment of abnormal perianesthetic acid-base status (respiratory vs metabolic acidosis; anion gap)
16:00 – 17:00  Diagnosis and treatment of abnormal perianesthetic acid-base status based on clinical cases (interactive exercises)

ca. 17:00  End of Module II

Module III

June 25, 2015

09:00 – 10:00  Multiple Choice Question (MCQ) Quiz 3 (42 MCQs) covering lectures 22 - 42
10:00 – 11:00  Indications and effects of mechanical ventilation on the anesthetized animal
11:00 – 12:00  Types of mechanical ventilators, modes of mechanical ventilation, and ventilator settings
12:00 – 13:00  Pharmacology of neuromuscular blocking agents (NMBs; focus: cis-jatracurium), mivacurium, edrophonium; Inducing peripheral muscle paralysis
13:00 – 14:00  Lunch break
14:00 – 15:00  Monitoring & reversing peripheral muscle paralysis (focus: neostigmine, edrophonium)
15:00 – 16:00  Case presentations to apply information acquired in previous lectures 25 - 41
16:00 – 17:00  Case presentations to apply information acquired in previous lectures 22 - 29

June 26, 2015

08:00 – 09:00  Case presentations to apply information acquired in previous lectures 30 - 46
09:00 – 10:00  Physiology and pathophysiology of perioperative pain
10:00 – 11:00  Signs of nociception & distress and pain assessment in small animals
11:00 – 12:00  Management of perioperative nociception - multimodal analgesia in small animals; Part I
12:00 – 14:00  Lunch break
14:00 – 15:00  Management of perioperative nociception - multimodal analgesia in small animals; Part II
15:00 – 16:00  Pharmacology of drugs used in loco-regional anesthesia & analgesia techniques in small animals
16:00 – 17:00  Common loco-regional anesthesia & analgesia techniques in small animals
June 27, 2015

08:00 – 09:00  Case presentations to apply information acquired in previous lectures 50 - 55
09:00 – 10:00  Case presentations to apply information acquired in previous lectures 50 - 55
10:00 – 11:00  Emergence from injectable and inhalant anesthesia
11:00 – 12:00  Managing common anesthetic emergencies
12:00 – 13:00  Lunch break
13:00 – 14:00  Principle approach to anesthesia for the emergency patient
14:00 – 15:00  Anesthesia for the patient with cardiac disease, Part I
15:00 – 16:00  Anesthesia for the patient with cardiac disease, Part II
16:00 – 17:00  Q/A Session for lectures 57 - 62

ca. 17:00  End of Module III

Module IV

September 10, 2015

09:00 – 10:00  Multiple Choice Question (MCQ) Quiz 3 (42 MCQs) covering lectures 43 - 63
10:00 – 11:00  Anesthesia for the patient with central nervous system disease
11:00 – 12:00  Anesthesia for the patient with endocrine disease
12:00 – 13:00  Anesthesia for the patient with gastro-intestinal disease
13:00 – 14:00  Lunch break
14:00 – 15:00  Anesthesia for the patient with liver disease
15:00 – 16:00  Anesthesia for the patient with renal disease
16:00 – 17:00  Anesthesia for the patient with eye disease and eye lacerations

September 11, 2015

08:00 – 09:00  Q/A Session for lectures 64 - 69
09:00 – 10:00  Anesthesia for the pediatric and senile patient
10:00 – 11:00  Introduction to the anesthesia of rabbits and pocket pets
11:00 – 12:00  Introduction to the anesthesia in birds
12:00 – 14:00  Lunch break
14:00 – 15:00  Case presentations to apply information acquired in previous lectures 58 – 66
15:00 – 16:00  Case presentations to apply information acquired in previous lectures 64 – 71
16:00 – 17:00  Q/A Session for lectures 71 – 75

20:00  Social dinner with all course participants and instructors

September 12, 2015

09:00 – 13:00  Review of course material of day 10
14:00 – 18:00  Review of course material of day 11

September 13, 2015

10:00 – 11:00  Multiple Choice Question (MCQ) Quiz (26 MCQs) covering lectures 64 – 76
16:00 – 17:00  Handing Out of Course Exam Results as well as Course Attendance Certificates

ECM Certificate Requirements

The course is E.C.M. approved. Completion of Principles of Small Animal Anesthesia & Perioperative Analgesia Course certificates will be presented to those participants who attended all lecture hours, took all MCQ exams, and successfully passed the 4 MCQ tests with a cumulative score of at least 75% of correct answers.
Principles of Small Animal Anesthesia & Perioperative Analgesia

REGISTRATION / HOTEL BOOKING
EARLY registration deadline: February 01, 2015
FINAL registration deadline: March 22, 2015

Please return this registration to the NARKOVET CONSULTING Office, Germany by mail or e-mail: narkovet@narkovet.de
Payment of Course Fees

Tuition fee: EURO 2,500.-- (including beverages, lunch and one social dinner with all participants and instructors at the end of module 4)

Please be advised that the subscription is limited to a maximum of 30 participants (minimum 15) and that scanned copies of the final bank transfer forms must be sent to NARKOVET CONSULTING by mail or e-mail to complete full registration.

Payment of Fee by Bank Transfer:
(Please do not make payment until you are informed of a place in the workshop, otherwise this will result in an administration charge if payment has to be refunded).

- **Regular Registration**: DEPOSIT OF 300 EURO ONLY to secure your place in the workshop. Unless arranged otherwise, the remaining payment must be transferred by no later than **March 22, 2015** to complete full registration and keep a guaranteed place in the course.

- **Early Registration**: FULL TUITION FEE minus 100 Euro discount at time of registration (single full payment of 2,400.-- EURO prior to **February 01, 2015**)

Account Holder: NARKOVET CONSULTING, LLC. Bank Name: Deutsche Bank Wuppertal AG ; BIC (SWIFT-CODE): DEUTDEDWUP IBAN: DE96330700240832101000

Please make sure that when transferring money from outside Germany any additional bank charges are included in the payment and not charged to NARKOVET CONSULTING, LLC and that the invoice number you received after confirmation of receipt of your registration is written on the bank transaction form.

TERMS AND CONDITIONS

Effective date: October 01, 2014

1. General comments

These General Terms and Conditions of NARKOVET CONSULTING, LLC. (hereinafter referred to as NARKOVET CONSULTING) are an integral part of the contracts entered into between NARKOVET CONSULTING and participants of continuing education courses/programs/workshops. NARKOVET CONSULTING provides its services in the context of continuing education programs solely on the basis of these Terms and Conditions.

2. Registration

Registration for continued education programs have to occur in writing (by filling out the forms available online and submitting them by e-mail to narkovet@narkovet.de or by mail to the postal address provided on the application form). Upon receipt of the application the customer will be sent by e-mail both a confirmation of registration and preliminary reservation as well as an invoice including details of payment terms, provided all information (including the full name, complete address, and a valid e-mail address) was entered and these Terms and Conditions were read and accepted as indicated by the signature on the registration form.

Please understand that the number of participants is limited in all offered continuing education courses/programs/workshops and therefore available spots assigned to clients in the sequence in which registrations were received. In the case we received already a maximum number of registrations for a specific course, we offer the customers to be put on a waiting list in the event that participants withdraw their commitments with short notice.

3. Terms of Payment

The fee for a continued education course/program/workshop is to be paid following receipt of the registration confirmation and invoice by the date stated in the online registration form and / or invoice. Usually a bank transfer to the account of NARKOVET CONSULTING stated on the registration form and invoice is requested. Registration is binding after the confirmation has been received by the customer. However, a place in the course will be guaranteed ONLY if the course fee has been received in full on the account of NARKOVET CONSULTING by the deadline indicated on the registration form.

All payments are due without any deduction within 14 days of receipt of the invoice or in case of early bookings no later than on the date indicated for early booking and regular bookings, respectively on the registration form and invoice, respectively. The customer agrees to pay for default interest in the amount of 5% above the base rate on the due date. NARKOVET CONSULTING is authorized to make in addition a claim for damages and to charge for each reminder a reminder fee in the amount of € 50.--. Failure to meet the payment deadline(s) carries the risk of losing the reservation of a place in the continuing education course. In the case the full registration fee has not been received on the due date, NARKOVET CONSULTING is entitled to cancel the reservation of the customer and to offer the space to another client.

4. Fees

All course fees quoted by NARKOVET CONSULTING exclude VAT (Usst. / IVA / TVA), unless otherwise expressly stated. Where and when applicable, sales taxes will be added to these fees and this will be indicated in the invoice the client is receiving. The course fees cover the education/training ONLY. Unless otherwise specified, expenses for travel, accommodation, and meals are not included. The fees quoted remain valid until the starting date of a course, program or workshop. NARKOVET CONSULTING, at its own discretion, is entitled to break down tuition fees for educational programs delivered in modules and to collect fees from clients on the basis of individual modules at different times by providing partial invoices for each individual course module.

5. Cancellation

Cancellation of a registration for a continuing education course/program/workshop can only be accepted in writing. Any cancellation is subject to a processing fee of € 50. --. In case a notification of withdrawal has been received by the NARKOVET CONSULTING OFFICE up to 30 days before the start of the continuing education course/program/workshop, the full fee will be returned to the customer minus a processing fee. If the customer cancels his/her participation in the course/program/workshop during a period from 29 up to 10 days before the starting of the course, 60% of the course fees will be refunded. After that period refund is unfortunately no longer possible. We accept, however, replacement for participants at no additional cost.

6. Changes to Courses/Programs/Workshops

NARKOVET CONSULTING reserves the right to make changes to the continuing education course/program/workshop, even after their announcement. We like customers to be aware that they are not entitled to a refund of the course fees in case of program changes, the failure of an instructor, or replacement of a speaker. Also relocation of the event by NARKOVET CONSULTING to another venue or postponement of the event for good cause (e.g., short-term failure of one or more key instructors) does not entitle
to claim damages or refund of the course fee.

In case the minimum number of complete applications required for a continuing education course/program/workshop to take place is not received within 2 weeks of the deadline for regular registration (indicated in the registration form), NARKOVET CONSULTING reserves the right to cancel the event. In case of cancellation for this reason NARKOVET CONSULTING will refund all course fees in full and any other payments already made. Any cancellation by NARKOVET CONSULTING of the continuing education course/program/workshop during a period up to 6 weeks prior to the start of the event does not entitle to any claims for damages, also not for travel and hotel booking expenses.

7. Copyright

The content of all educational course/program/workshop materials provided including course and training documents, drawings, images, graphs, proposals, reports, analyses, organizational charts, programs, specifications, designs, calculations, media, etc. is and remains the intellectual property of NARKOVET CONSULTING and/or the speakers / instructors. Any reproduction (also for internal use by the event participants or paying client) is permitted only with the express written permission of NARKOVET CONSULTING. All materials/media remain the property of NARKOVET CONSULTING. If the customer violates these provisions, he shall pay NARKOVET CONSULTING an appropriate user fee, which is based on the value of the continuing education course, program or workshop. NARKOVET CONSULTING expressly reserves the right to claim further damages.

8. Privacy policy

The disclosure of all personal and business data by the user of the website or the services of NARKOVET CONSULTING takes place voluntarily. It is prohibited to use contact details of NARKOVET CONSULTING, postal addresses and phone numbers, and e-mail addresses for sending unsolicited information. NARKOVET CONSULTING preserves the right to execute legal action against senders of spam mails in violation of this prohibition. The user agrees to the electronic processing of his/her data. The customer declares that he/she passes on to NARKOVET CONSULTING data subject to privacy law regulations for contractual purposes. If any part of these Terms of Use is held invalid or unenforceable, that portion shall be construed in a manner consistent with applicable law to reflect, as nearly as possible, the original intentions of the parties, and the remaining portions shall remain in full force and effect. Relevant statements presented herein shall not be deemed a waiver of any further rights hereunder. The customer is required to inform NARKOVET CONSULTING immediately in writing of any changes regarding his/her postal and/or e-mail address. Relevant statements will be delivered to the customer's last known address. Thus, the delivery to a former address shall be deemed effective when the other party has moved to a new address without leaving a note regarding the change in address.

9. Limitation of Liability

NARKOVET CONSULTING is committed to deliver its educational programs with the care of a prudent business enterprise. Liability for minor negligence is excluded by this agreement. NARKOVET CONSULTING assumes no responsibility for the relevance, correctness, completeness or quality of the information provided by speakers / instructors during continuing education courses/programs/workshops. Liability claims against NARKOVET CONSULTING, which refer to direct or indirect damage to or by animals or direct or indirect damages of any other nature caused by the use, interpretation, or non-use of presented information or by the use of incorrect and incomplete information were, are excluded.

A liability of NARKOVET CONSULTING for damages we are responsible for is limited in amount to the total amount of the continuing education course/program/workshop fees. There is no liability for consequential damages. The customer must notify NARKOVET CONSULTING of any deficiency promptly and in writing, otherwise all claims are lost. The parties mutually agree that deficiencies are to be reported and claimed within six months of completion of the continuing education course/program/workshop regardless of what legal grounds support the customer’s claim. After this period, the claim is extinguished, so that no relevant objections can be raised anymore. NARKOVET CONSULTING is required to correct any deficiencies by improvement or supplementation of the missing. The customer can demand rescission or price reduction only when NARKOVET CONSULTING rejects any improvement in writing and without providing reasoning or when even the third improvement attempt failed. When confronted with warranty claims by third parties in conjunction with this contract, the customer has to inform NARKOVET CONSULTING immediately in writing, otherwise risks losing any claim of loss or damage. NARKOVET CONSULTING provides no travel, accident, or health insurance coverage for clients participating in continuing education courses/programs/workshops. Participants are therefore encouraged to obtain, if necessary, on their own reasonable travel, accident, and health insurance coverage for the time period they stay away from home (including time for arrival and departure).

10. Final provisions

This agreement and all of the terms and provisions hereof and the rights and obligations of the parties hereto shall be construed and enforced in accordance with German law. Any legal action or proceeding between the parties arising out of this Agreement shall be brought in the courts of Wuppertal, Germany, and the parties hereby accept the jurisdiction of the said courts for all purposes. If any part of these Terms of Use is held invalid or unenforceable, that portion shall be construed in a manner consistent with applicable law to reflect, as nearly as possible, the original intentions of the parties, and the remaining portions shall remain in full force and effect. The failure of NARKOVET CONSULTING to exercise or enforce any right or provision of these Terms and Conditions shall not constitute a waiver of such right or provision. The failure of either party to exercise in any respect any right provided for herein shall not be deemed a waiver of any further rights hereunder. The customer is required to inform NARKOVET CONSULTING immediately in writing of any changes regarding his/her postal and/or e-mail address. Relevant statements will be delivered to the customer's last known address. Thus, the delivery to a former address shall be deemed effective when the other party has moved to a new address without leaving a note regarding the change in address.
